# Initial Questions

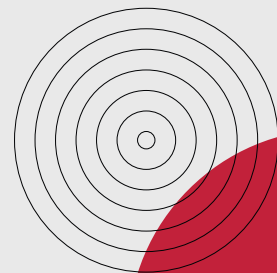

- How would you feel if Shalhevet mandated the covid vaccine?
- Is this different from other vaccines mandates?

# The morality

- Do we have an obligation to the common good to get vaccinated?
- How do we balance individual freedoms with our responsibilities?

“Do vaccine mandates violate civil liberties?  
Some who have refused vaccination claim as  
much.

We disagree.

...

In fact, far from compromising civil liberties,  
vaccine mandates actually further civil  
liberties.”

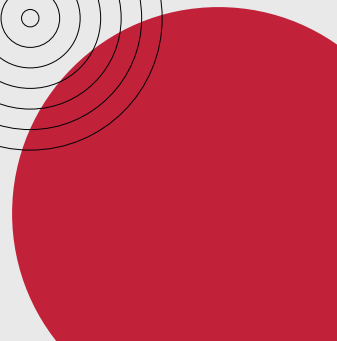

**American Civil Liberties Union**

# Greater patterns?

- Do you notice a difference in attitude toward the vaccine from different political groups?
- Why do you think that is?

# The Legal Side

- Do you believe the government **can** mandate the vaccine?
- Do you believe the government **should** mandate the vaccine?
- Should private businesses mandate the vaccine? For who? (employees, customers, etc.)
